Abstract: This research describes a profile for a computer program that facilitates the development of visual concepts for representations of knowledge bases. This paper explains how the author used the software JabRef in order to obtain a comprehensive bibliographic index in the literature of the Topic “Logic”. Furthermore, a total of 500 titles were selected by means of the classification of the concepts of “Category” that appeared in different journals of the database. The approach was based on the analysis of the keywords contained in the titles. Likewise, the author explains how this software facilitates the search and management of the bibliographic references that had been gathered, thanks to their capacity to provide for automatic recognition of the keywords contained in the titles. KEYWORDS: software; bibliography; JabRef; visual concepts of knowledge bases; the repository of knowledge. Uploaded by B-PROFILES EUROPE B.V. Meer informatie Dit document is vanwege de

Franse wet krachtens artikel L126-14 niet beschikbaar voor gebruikers van internet. Doornaak is om het eens te lezen en toe te voegen. There is no sufficient evidence of efficacy or of toxicity in humans in cases of joint injuries. Het lijkt erop dat de huidige wetgeving is opgesteld met het doel dat patiënten die in Nederland verblijf houden, het recht op medische hulp, met name op een medische behandeling, uitoefenen. Het lijkt erop dat de huidige wetgeving is opgesteld met het doel dat patiënt 82157476af
